Dear [redacted]

25X1

For your information, Washington papers on the Cyprus project have been declassified from SECRET to RESTRICTED, except if they contain other material warranting higher classification. I believe, however, that it would be advisable for you to maintain present classification on the project until the land has been acquired and there is no further possibility of any hitch arising.

This will also acknowledge receipt of your six letters of 16, 18, 19 and 21 January on which appropriate action is being taken.

Sincerely,

[redacted]
Acting Chief, FBIS
